What is a Deep Tissue Athletic Massage?

A Deep Tissue Athletic Massage is pure results. What we mean by that, is most of your problems with stress, joins, aches and pains during and after exercise, can be rooted back to specific muscles which are overly tight, and cannot be relaxed through normal massage techniques.

That's where we come in.

Body Hackers specializes in massage techniques that get you back to performing both in the gym and on the field.

Trusted By Athletes

Our Client Base is far and wide, and have been trusted by Top Athletes across the State of Utah, from St. George to Ogden, and includes runners, strongmen, powerlifters, bodybuilders, weekend warriors, and even new gymgoers. No matter your level of fitness, we can help you feel better, move better, and move on to your next level.

FAQ

Meet the Team

Logan

Spencer

Logan Karratti

Growing up as an athlete Logan dealt with injury and soreness on a daily basis. While chasing sports dreams in Los Angeles he found himself in more and more pain as the years added up. Getting treatment he would feel better for a bit, but never long enough. So he started to reverse engineer shortcuts or "hacks" to keep the pain at bay so he could perform when it mattered most. Eventually this lead to massage school and pursuing recovery in ways he wish he would have had when he was playing.

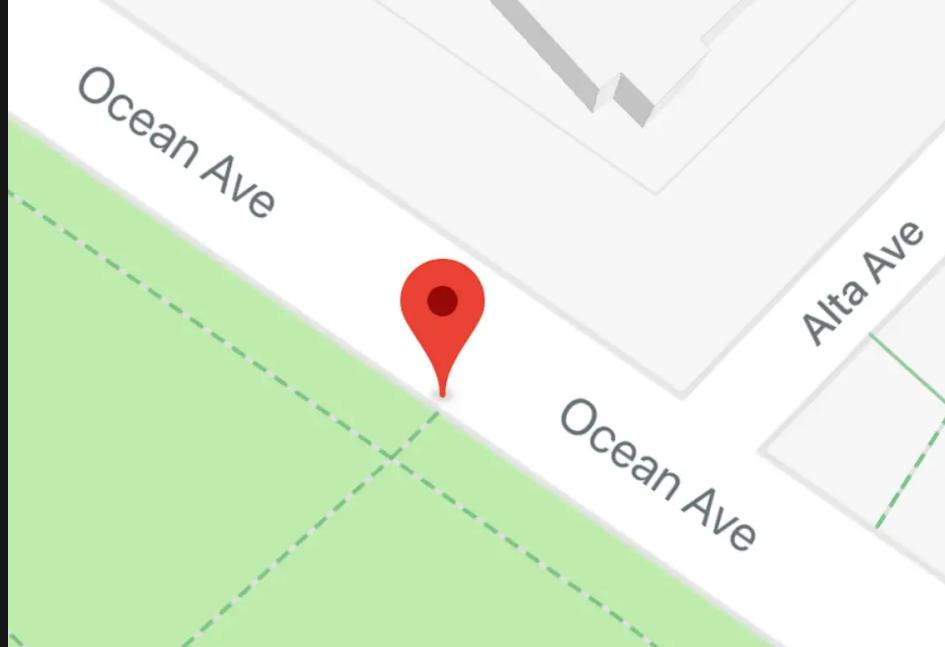

Now Logan has developed his own style for getting athletes and weekend warriors back to playing at their best.
